FREE Applique Pattern

Week 3 - Layered Flower

layering template

This is a three layered flower. When you make your flowers, you can use 1, 2 or all 3 flower pieces. Try a few on coasters, mug rugs, placemats, a table topper, wall hanging or a quilt. I've used similar ones in some of my patterns, and they're always fun to play around with fabric choices. This design might be a little difficult for needle turned work, but it's well suited for machine applique (which is what I designed it for originally), feltwork, or even paper crafts. Use your imagination, and be sure to share on my blog what you've created with them!
