assembly guide

Mrs. Snowman is ready to dress up your whole house for winter. Add her to placemats, table topper, or a wall hanging, table runner or even a quilt. Mr. Snowman from last week can be paired with her for all sorts of cute creations. Best suited for machine applique, feltwork (which is what I designed it for originally), or even paper crafts. Use your imagination, and be sure to share on my blog what you've created with them!
